

NOOR FATIMA

Aspiring Full Stack Web Developer

Pakistan | Noorsoftwareeng@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Software Engineering student (5th semester, BSSE) with hands-on remote internship experience building responsive, user-facing web applications using React.js and modern JavaScript. Strong frontend foundation in HTML5, CSS3, and Tailwind CSS, currently expanding into backend development (Node.js, Express.js) and database design (MongoDB) to become a well-rounded full stack developer. Comfortable working with AI-assisted development workflows and agentic AI tools to accelerate problem-solving and code quality. Known for clear communication, fast learning, and a disciplined Git/GitHub workflow in collaborative, remote-first teams. Actively seeking international internships and remote Software Engineer, Frontend, React, or Full Stack Developer opportunities.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive Web Design

Backend (Learning): Node.js, Express.js

Database (Learning): MongoDB

Programming Languages: JavaScript

AI & Automation: ChatGPT, Claude AI, Agentic AI, n8n, AI-Assisted Development

Version Control: Git, GitHub

Tools: VS Code, Vite, Microsoft Office

EXPERIENCE

Remote Frontend AI Intern — FlyRank

June 2026 – August 2026

Remote

- Developed and maintained responsive, cross-browser frontend interfaces using React.js, HTML5, and CSS3, ensuring consistent performance across devices.
- Leveraged AI-assisted development tools to accelerate coding, debugging, and code review, improving development speed while maintaining code quality.
- Collaborated with a remote, distributed team using Git and GitHub, following structured branching, commit, and pull request workflows.
- Applied problem-solving skills to troubleshoot UI bugs and implement responsive design fixes aligned with modern web development best practices.
- Communicated progress and blockers clearly in an asynchronous, remote-first environment, strengthening cross-team collaboration.

PROJECTS

Smart Task Manager

Technologies: React.js, JavaScript, HTML5, CSS3, Vite, Git, GitHub

[GitHub Repository](#) | [Live Demo](#)

- Built a responsive task management web application using React.js and JavaScript, enabling users to create, edit, delete, and mark tasks as complete.
- Designed reusable, modular React components to improve code organization, readability, and long-term maintainability.
- Implemented efficient client-side state management using React Hooks (useState) to handle real-time task updates without page reloads.
- Managed the full development lifecycle using Git and GitHub with a clean, structured commit workflow.
- Deployed the application to production, delivering a fast, accessible, and mobile-friendly user experience.

Additional projects to be added.

EDUCATION

Bachelor of Science in Software Engineering (BSSE)

Currently Enrolled — 5th Semester

PMAS University

Intermediate in Computer Science (ICS)

Government College Gujrat

CERTIFICATIONS

- AI Fluency: Framework & Foundations
- Claude 101 — Anthropic
- ChatGPT 101 — Simplilearn
- Website UI/UX Designing Using ChatGPT — Simplilearn
- Microsoft Office — Jamia Computer Academy

SOFT SKILLS

Communication, Problem Solving, Team Collaboration, Time Management, Fast Learning, Adaptability, Critical Thinking

LANGUAGES

English (Professional Proficiency) | Urdu (Native)
